

NEW
SMART CONCRETE®
SENSORS

Real-time remote monitoring of
temperature, maturity, and strength

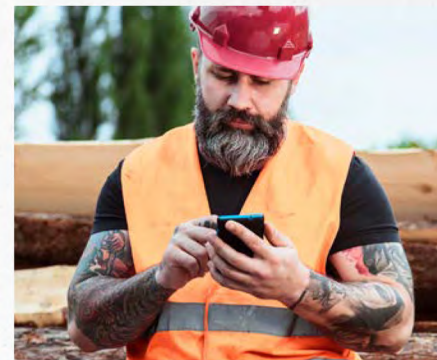

Why monitor temperature with Maturix?

- ✓ Eliminates job site visits to download data
- ✓ Real time temperature differential on mass pours
- ✓ Sends alerts if outside of your pre-set parameters

Why monitor strength with Maturix?

- ✓ Know exactly when to load / strip / tension / open / saw cut
- ✓ More accurate than crush tests
- ✓ Understand issues in real-time

Why Maturix?

- ✓ True real-time monitoring
 - No need to visit project to take readings
- ✓ Reusable wireless transmitting sensor
 - Lowest cost - unlimited use with fixed costs
- ✓ User friendly software
 - Create alerts, records data, create reports, share with team

Kryton International Inc. is a leader in innovative **Smart Concrete® technologies**

Kryton products offer the most effective **concrete waterproofing, durability, and monitoring solutions** in the world
