

KRYSTOL[®] ASSURANCE PROGRAM[™]

10 YEAR EXTENDED WARRANTY ON MATERIALS AND LABOR

INTEGRAL WATERPROOFING & DURABILITY SOLUTIONS

Krytol Assurance Program is an extended warranty that covers the cost of materials and labor required to repair leaks that may occur for 10 years.

SMART CONCRETE[®]

Build Confidently with Kryton

Kryton has the best-in-category warranty that guarantees Krystol-treated areas of your structure will remain watertight during the warranty period.

Our standard warranties guarantee the products are free from manufacturing defects. Kryton has the only crystalline waterproofing admixture associated with projects that have successfully outlasted their warranties.

The Krystol Assurance Program - Extended Warranty

We understand risks and reputation. Our award-winning products have been proven to stand the test of time. With Kryton's KAP, we are able to protect your reputation as high quality builders, designers, developers and owners.

KAP provides the extra peace of mind that Kryton will cover materials and labor should repairs be needed. The warranty period is for 10 years starting from the day the waterproofing system is completed and dry.

- Guarantees Krystol-treated areas remain watertight
- Provides enhanced quality control and supervisions:
 - Mix design review
 - Construction detail review
 - Supervision during placement of Krystol Internal Membrane™ (KIM®) treated concrete
 - Quality Assurance
